

WHIRLPOOL - DESIGN WORKSHEET

VIRGINIA A. WALTON © 2006

This diagram is for a 5 block X 6 block Quilt. The Creative Curves 3" Ruler will make 12" Blocks (finished), the Creative Curves 2" Ruler will make 8" Blocks (finished). The placement of the fabrics is the same no matter how many blocks are used in the final quilt. There are 3 different Blocks in the Quilt; Corner Blocks, Side Blocks and Middle Blocks.

In the version seen below a number of the Blocks have graphics in them, the graphics are to help learn where individual fabrics are used in the quilt. The fabric placement is the same throughout the entire quilt. In addition, while the original quilt used 5 fabrics for the "STARS". This quilt is also quite dramatic if the Background Fabric is used for the "STARS".

The "WHIRLPOOL" Worksheet may be reproduced for personal use only.
